

TECHNICAL DATA SHEET

RASCObond Fixing Adhesive

RASCObond Fixing Adhesive is a solvent-free, 1-component, silane-polymer-based adhesive.

USE

RASCObond Fixing Adhesive is used to install hydrophilic strip.

FEATURES

- bonds well to concrete, metal and plastics
- very straightforward application

TECHNICAL/PHYSICAL DATA

Supplied form	paste
Material colour	white
Container type	cartridge
Container size	290 ml
Density (DIN EN ISO 2811)	approx. 1,5 kg/dm ³
Hazardous goods/ADR	none
Application temperature	from +5° C to +40° C
Storage/shelf life	12 months in original container, in dry conditions

APPLICATION

The base shall be dry, free from dirt, dust, oil, grease and loose particles. RASCObond Fixing Adhesive shall be applied continuously using a standard extrusion gun, such as that used for mastics, to form a uniform bead. In case of rough bases, the bead shall be large enough to fully even out the irregularities and ensure full contact between the fixing adhesive and the subsequently installed hydrophilic strip.

GENERAL GUIDELINE

To ensure the fixing adhesive is applied to the base with sufficient pressure, the angle between cartridge and base shall be at least 45°. One cartridge contains enough adhesive to fix approx. 10 m of hydrophilic strip. The exact consumption depends on the roughness of the base and may therefore fluctuate significantly.

SAFETY NOTICE

Protective gloves shall be worn. For further details, please consult the safety data sheet.

SUPPLY/ADDITIVE

Item no.	Product	Container	Contents
1109.2101.001	RASCObond Fixing Adhesive	box	12 pcs
